

Faculty

Ruth Dismuke-Blakely, MS/CCC- SLP, HPCS

Ruth is a speech/language pathologist and professional horsewoman involved in using hippotherapy since 1978. She operates Skyline Therapy Services; an outpatient clinic specializing in the trans disciplinary applications of equine movement in PT, OT and ST. Ruth has published research and articles, presented at numerous conferences and workshops and has taught internationally. She served on the Board of Directors of the American Hippotherapy Association, was V-President of AHA, helped develop the AHA curriculum and currently serves as Chair of the Reimbursement Committee. She is a former AHCB Board member, is an AHCB Clinical Specialist and she is regarded as a leader in the field of hippotherapy as a treatment tool. Ruth is a former AHA Therapist of the Year. She lives in Edgewood, New Mexico. Speaker Disclosure: Financial: Ruth Dismuke-Blakely is an independent contractor for the AHA, Inc. and receives a fee from AHA, Inc. for this program. Non-Financial: Ruth Dismuke-Blakely is a member of the AHA, Inc.

Joann Benjamin, PT, HPCS

Joann has been practicing Physical Therapy for more than 30 years, specializing in the use of Hippotherapy for children and adults. She has a background in neuro rehab, and currently specializes in pediatrics/early intervention, working in the Los Angeles area. She has taught about Hippotherapy internationally as a Faculty Coordinator with the American Hippotherapy Association (AHA, Inc). She is Board Certified as a Hippotherapy Clinical Specialist. She served on the board for the American Hippotherapy Association, Inc. and the American Hippotherapy Certification Board (AHCB). She was a recipient of the AHA Therapist of the Year in 2017. She serves on the Adaptive Sports Committee with the USEF, and is a Para-Equestrian Classifier for the USEF and the FEI for competitive dressage, driving and reining for athletes with disabilities. Speaker Disclosure: Financial: Joann Benjamin is an independent contractor for the AHA, Inc. and receives a fee from AHA, Inc. for this program. Non-Financial: Joann Benjamin is a member of the AHA, Inc.

Course Description

This curriculum is the follow up to AHA, Inc. Hippotherapy Treatment Principles- Part I, with an emphasis on patient treatment and more advanced equine knowledge necessary for hippotherapy as an equine discipline. Lecture, discussion, collaborative work and actual patient treatment occur over 4 days.

Subjects include: recognizing desirable conformation, soundness, and movement qualities of the therapy horse; training, conditioning and monitoring of the therapy horse; understanding optimization of the therapy horse for a patient treatment; with emphasis on safety principles. Students will learn to identify and convey to the horse handler the necessary skills required to produce quality movement in the hippotherapy horse in patient treatment and understand the need to educate and train staff and/or volunteers who will be working with the therapy horse.

This curriculum is designed to provide and facilitate a problem solving treatment approach, using actual patients currently involved in hippotherapy as part of their physical, occupational or speech therapy treatment plan. Practical applications of the AHA Conceptual Framework, including Dynamic Systems and Motor Learning Principles will be facilitated.

Treatments will be videotaped and reviewed with discussion and instructor feedback to analyze and further advance the learning experience. Content will include information necessary to successfully incorporating equine movement as a treatment tool into therapy practice. The learning outcomes will be assessed during participation in active learning activities, learner demonstration of skills during practicums, and class discussions and small group work.

Course Schedule

Day 1

8:00 Introduction
8:30 Horse Movement/Patient Response
9:00 Hippotherapy Conceptual Framework
10:00 Break
10:15 Analysis of the Therapy Horse
11:15 Effects of Good Horse Handling.
12:00 Lunch
12:45 Halter Leading Practicum
1:30 Equipment Options in Leading
2:15 Break
2:30 Safety Rules and Side Walking Protocols.
3:15 Matching Horse to Patient
3:45 Review Patient Videos/Descriptions
4:30 Equipment Options
5:15 Wrap up

Day 2

8:30 Questions/Review
9:30 Dynamic Assessment
10:00 Break
10:15 Demo of Lunging/Long Lining
10:45 Long Lining Practicum-Horseless
11:15 Develop Treatment Plans
12:15 Lunch
1:00 Patient Observations practicum (non-treating therapists)
2:15 Break
2:30 Patient Observations practicum (non-treating therapists)

4:00 Video review
5:30 Wrap up

Day 3

8:30 Questions/Review
8:45 Long Lining Practicum
10:00 Long Lining/Leading –Evaluation Practicum
10:45 Break
11:00 Horse Training and Performance
11:45 Meet to modify treatment plans
12:15 Lunch
1:00 Patients 1,2,3
Documentation (non-treating therapist)
2:15 Break
2:30 Patients 4,5
Documentation (non-treating therapists)
3:45 Discussion/Review of Videos
5:15 Wrap up

Day 4

8:30 Questions/Review
8:45 Billing/Coding/Business issues
10:00 Break
10:15 Standards of Practice and AHCB Certifications
11:15 Lunch
11:45 Evidence Based Practice/Research,
12:15 AHA Resources
1:00 Review Objectives
1:45 Course Evaluations
2:15 End

Learning Outcomes

AT CONCLUSION OF COURSE, STUDENTS WILL BE ABLE TO:

Explain the application of five tenets of the Hippotherapy Conceptual Framework when developing a treatment plan that incorporates equine movement and assessing treatment results towards functional outcomes.

Identify and explain the rationale for five components of treatment planning, implementation and modification with the use of hippotherapy/skilled equine movement in a realistic treatment scenario.

Describe three examples of effective use of skilled equine movement to address identified patient impairments during participation in therapy session practicums.

Describe two treatment criteria to establish when hippotherapy/skilled equine movement is no longer the most effective treatment tool/strategy to achieve established patient goals.

List and describe five components of the AHA, Inc. Best Practice Guidelines that can guide clinical practice when hippotherapy/skilled equine movement is incorporated into the Plan of Care.

Registration Form – Level II

July 12-15, 2019
